

Project Manager (m/f/d) Bramfelder Str. 164, 22305 Hamburg Fulltime

14 March 2025

To strengthen our project team we are looking for a

Project Manager (m/f/d) for multidisciplinary projects

Located in Hamburg, the private and independent Hamburg Ship Model Basin - HSVA - is a service and consulting company for clients in the maritime industry worldwide. Our products contribute to a greener, more sustainable usage of marine environments. We help reducing emissions from shipping and we increase safety in marine transportation. We are partners to our clients for the development of innovative, tailor-made solutions in shipping and offshore operations. For experimental investigations we are offering world class testing facilities. Its leading role in national and international research programs makes HSVA a most competent partner in science and services in the field of maritime hydrodynamics, maritime aerodynamics and arctic technology as well as associated disciplines.

Responsibilities

- Management of projects concerning development of testing equipment and facilities as well as large testing campaigns both internal and for clients
- Effective leading of cross-functional project teams
- Planning, coordination and procuring of resources
- Monitoring of progress and budget, risk analysis
- Communication with stakeholders (clients, external parties, Management)
- Internal communication with project participants
- Scientific and technical responsibility for the overall project goals
- Reporting and presentation in German and English
- Commissioning tests at clients premises, claim management
- Consulting services for customers
- Acquisition and preparation of quotations

Requirements

- Proven track record as overall manager of technical projects in a relevant industrial field
- At least second level university degree (MSc, PhD), preferably with knowledge of mechanical engineering, measuring techniques, fluid mechanics, naval architecture, marine engineering or comparable fields
- Good self-organisation and organisation skills
- Confident appearance to represent company interests
- Motivated to take responsibilities
- Team player and strong communicator
- Hands-on mentality and result orientation
- Self-motivated lifelong learner
- Good computer skills
- Willingness to work in a dynamic environment with experimental facilities, including flexible working times
- Willingness to occasionally travel worldwide to customers and projects sites
- Excellent verbal and written English language skills
- Preferably German language skills or willingness to learn German

Benefits

- Exciting and diversified tasks within a modern service provider for the global maritime industry
- Flat hierarchies, short decision paths
- Flexible working hours
- Innovative team

We look forward to receiving your expressive application including your salary expectations as well as your earliest possible starting date until 31 March 2025. By e-mail to:
